RELEVANT EXPERIENCE

Google Career Certificate Program: Cybersecurity

July 2023 - September 2023

Cybersecurity Student

- Familiarized myself about the elements of cybersecurity including SIEM tools, playbooks, and different type of attacks like phishing
- Heard from 10-15 security analysts at Google and grasped the idea of what it takes to be a successful security analyst
- Showcased what I had learned through doing a set of around ten activities and putting them into a portfolio

Grant Thornton Empower Program

February 2023-May 2023

Mentee

- Gained insight on interview skills, resume building, and networking
- Drafted a professional statement regarding my career and current standing with the help of my mentor
- Networked and built relationships while learning how to be a professional in the workplace

PROJECT EXPERIENCE

December 2023-January 2024

Personal Website

- Planned the layout of my website and how I would continue to update it even after the initial model was done
- Developed my personal website using HTML and modified the styling using CSS
- Constructed three separate repositories to contain the contents of the navigation bar tabs

Password Generator in Python

December 2023

- Debugged using some research about string digits, letters, and special characters in the string library
- Tested repeatedly until it was confirmed that the password generator meets the requirements of desired length, strength, etc
- Used six core Python elements such as user input, strings, random library, conditionals, arrays, and loops

SKILLS

Software: Microsoft Excel, Microsoft Access, Microsoft Powerpoint, Microsoft Word

Programming: Java, NetLogo, Scheme, Python, C++

Spoken Languages: Hindi, Sindhi, Punjabi, and Spanish
